EXPERIENCE

People10 Technosoft Pvt. Ltd., Bengaluru, India — *User Interface/ Experience Designer*

MAY 2018 - PRESENT

The role required me to work on both internal and external projects. In the internal projects I worked closely with peers on the projects' requirements. Here I would provide UX and UI for the internal projects and support with the assets which would include icons, screens, illustrations, etc. I also worked on making various graphic posters, banners, pamphlets, brochures, badges and other articles for numerous events and conferences. For the external projects I have developed UX for the clients.

Philips Innovation Campus, Bengaluru, India — *Software Engineer*

JUNE 2016 - MAY 2018

Worked as a backend developer on Java language in Personal Health Solutions(PHS). Here we developed

micro-services which would function for a health watch. Here we were also involved in developing RESTful APIs which would be used by Android and iOS applications.

After an year I shifted to another department, Radiology Solutions where I was involved in Front-end(web) development in HTML, CSS, Javascript, Angular 2 and 5 to develop dashboards for hospital records.

CERTIFICATIONS
