EXPERIENCE

MAY 2018 - JUN 2019

People10 Technosoft Pvt. Ltd. Bengaluru, India

User Interface/ Experience Designer

Worked on UI and UX for several client projects which involved requirement gathering, user research, creating user flows, developing wireframes and sharing with developer, creating prototypes, performing usability tests and creating User Interface with theming and keeping modern trends in mind.

I also worked for the internal projects and supported with the assets which would include icons, screens, illustrations, etc. I also worked on making various graphic posters, banners, pamphlets, brochures, badges and other articles for numerous events and conferences.

JUNE 2016 - MAY 2018

Philips Innovation Campus, Bengaluru, India

Software Engineer

Worked as a backend developer on Java language in Personal Health Solutions(PHS). Here I developed micro-services and RESTful APIs which would function for a health watch.

After an year I shifted to another department, Radiology Solutions where I was involved in Front-end(web) development in HTML, CSS, Javascript, Angular 2 and 5 to develop dashboards for hospital records.
